

# Supplementary Material for “Reproducing Historical Bar Graphics on Epidemics in the Era of R ggplot2”

Sami Aldag,  
Dogukan Topcuoglu\*,  
and  
Gul Inan\*

August 13, 2021

We would like to give the original versions of column bar graphics used in the paper here so that a comparison between the original and reproduced versions of the graphs can be done. We note that symbol ■ in Figure titles is used to denote the column bars filled with hatch pattern with vertical lines.
