

R Journal

August 5, 2020

Dear *R Journal* Editorial Staff:

Please consider the attached article, *krippendorffsalpha: An R Package for Measuring Agreement Using Krippendorff's Alpha Coefficient*, for publication in your journal.

This article goes well beyond a package vignette in that the article situates Krippendorff's α among statistical procedures before describing, and illustrating the use of, my package. Since Krippendorff's α methodology was developed in the field of content analysis, the methodology has not yet been described in a properly statistical fashion. This article fills said gap in the literature.

Thank you for your consideration. I look forward to hearing from you.

Sincerely,

John Hughes
